25X1 6. [redacted] Dick Kaufman, General Counsel, Joint Economic Committee, called and asked if the Director's 18 June briefing of the Committee could be held at 2:00 p. m. instead of 10:00. He also said they would like, by the end of this week, the responses to the questions they posed in a letter to us so they can prepare questions for the briefing. After checking with the Director's office, Mr. Kaufman was advised 2:00 p. m. on the 18th would be fine.

25X1 7. [redacted] I talked with Jack Boos and asked how the session went out here yesterday. I told him I was sorry that I was not able to attend. Boos said they had an opportunity to get through a lot of information. I asked him if Field felt he had seen what he came for and Boos said he thought he had.

25X1 8. [redacted] Bob Monahan, Defense Department, called on the status of the Agency's security review of the Gates transcripts of testimony before the Senate Foreign Relations Committee on the U-2 and the Summit meeting. He said State had already returned their transcripts to Pat Holt, Senate Foreign Relations Committee staff, and he felt he would soon be getting some heat from Holt. In response to my query, Monahan said Holt had informed Defense people that they did not intend to mislead various Federal agencies by Holt's follow-up letter to them.

25X1 9. [redacted] Called Mike Reed, in the office of the Speaker of the House, and said we were once again getting very firm indications that the Subcommittee on Postal Facilities, Mail and Labor Management, House Post Office and Civil Service Committee, desires to have either Mr. Colby or another Agency witness testify on the mail survey program. I reminded him we had called his attention to this previously against the possibility that the Speaker may be able to be a restraining influence on the various committees wanting a piece of the action, that we wanted him to know of this latter development especially in light of [redacted] scheduled meeting with the Speaker tomorrow. I told him we would appreciate any advice or support Reed could give us. He was quite pessimistic as to whether anything constructive could be done in light of the current atomopheries surrounding the House Select Committee.

31. (Unclassified - WPB) Took a call from a Mr. Kirkpatrick at State Department who is compiling the replies to Senator Brooke's questions on the Mayaguez incident. Senator Brooke had asked what was the scope of intelligence activities in the area of the seizure. Kirkpatrick was intending to answer there were no intelligence activities underway in the area, and asked me if this was alright. Based on conversations I had earlier with [] and [] I said I was pretty sure that his answer was alright, but that I would double check and get back to him. After talking with [] EA Division, and once again with [] called Kirkpatrick and confirmed there had been no intelligence activities in the vicinity at the time of seizure. He asked if he could put down me and [] as having cleared the answer, and I said that would be fine.
